SUMMARY

Computer Science graduate transitioning into software development with 2+ years of corporate experience. Currently learning full-stack development, focused on Full Stack technologies, Python, and Generative AI. Proven track record of reliability and professional excellence, now seeking to leverage technical proficiency in React, Python, and modern UI/UX design (Glassmorphism, 3D interactive animations) to contribute to high-impact engineering teams.

TECHNICAL SKILLS

HTML, CSS, Bootstrap, jQuery, JavaScript, React, MySQL, Python, Django, Git/GitHub, MS Excel, Generative AI Foundations, Responsive Web Layouts.

PROJECTS

Professional Portfolio Website ('[Yash.dev](#)') 2026

- Developed a high-end animated portfolio using React, Framer Motion, and Lenis for smooth scrolling.
- Implemented modern UI trends including Glassmorphism and 3D interactive animations.

E-commerce Platform ('[Your's Store](#)') 2026

- Built a functional e-commerce site focused on responsive design and seamless user navigation.
- Engineered a robust full-stack application by integrating a Django backend with a responsive HTML5/CSS3/JavaScript frontend.

Social Media Web Application ('[Social Vibe](#)') 2026

- Social Vibe is a feature-rich, full-stack social media web application. It provides a modern, interactive platform for users to connect, share content, and communicate in real-time within a stunning "glass-morphism" themed environment.
- Integrating a Django backend with a responsive HTML5/CSS3/Bootstrap5/JavaScript frontend.

PROFESSIONAL EXPERIENCE

Online Chat Representative	Aug 2023 – Oct 2025
<i>Etech Global Services</i>	Gandhinagar, Gujarat

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science	July 2018 – May 2022
<i>Babaria Institute, BITS Edu Campus</i>	Gujarat, India

CERTIFICATIONS

- Complete 2026 Python Bootcamp: Learn Python from Scratch
- Generative AI Foundations
