SUMMARY

Computer Science graduate transitioning into software development with 2+ years of corporate experience. Focused on Full Stack technologies, Python, and Generative AI. Proven track record of reliability and professional excellence, now seeking to leverage technical proficiency in React, Python, and modern UI/UX design (Glassmorphism, 3D interactive animations) to contribute to high-impact engineering teams.

TECHNICAL SKILLS

Languages & Web: Python, JavaScript, HTML5, CSS3, jQuery

Frameworks & Libraries: React, Bootstrap, Framer Motion, Lenis

Databases & Tools: MySQL, Git/GitHub, MS Excel

Specializations: Generative AI Foundations, Responsive Web Layouts, UI/UX Animations

PROJECTS

Professional Portfolio Website 2026

- Developed a high-end animated portfolio using React, Framer Motion, and Lenis for smooth scrolling.
- Implemented modern UI trends including Glassmorphism and 3D interactive animations.

E-commerce Platform ('Yours Store') 2026

- Built a functional e-commerce site focused on responsive design and seamless user navigation.
- Engineered a robust full-stack application by integrating a **Django** backend with a responsive **HTML5/CSS3/JavaScript** frontend.

PROFESSIONAL EXPERIENCE

Online Chat Representative Aug 2023 – Oct 2025 Etech Global Services Gandhinagar, Gujarat

- Achieved a 95% customer satisfaction rating through effective communication and technical problem-solving.
- Utilized CRM tools to efficiently manage customer inquiries and resolve issues, enhancing overall experience.
- Collaborated with team members to streamline internal processes, contributing to a more effective service environment.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science July 2018 – May 2022 Babaria Institute, BITS Edu Campus Gujarat, India

CERTIFICATIONS

- Complete 2026 Python Bootcamp: Learn Python from Scratch
- Generative AI Foundations
